

Level headed solutions!

New from BAL. Ultrabase self-smoothing levelling compound for floors and Quickset Render for walls.

The perfect start to any job is a smooth, level background, ready for tiling without waiting.

You need the right start for a perfect finish. Create a flat, level background quickly, with fast-setting preparation from BAL – the professional's favourite.

ultrabase & quickset render

Trust BAL to give the right start

Ultrabase self-smoothing levelling compound for floors and **Quickset Render** preparation render for walls.

All you need for the perfect start to any tiling job

Fast-setting backgrounds to give you total tiling confidence.

Ultrabase

Sets in just 2 hours

Ready to receive tiles in 4 hours, other floor coverings in 24 hours.

Highly flowable

Self-levelling from feather-edge to 10mm bed thickness (greater depths with added granite chippings).

Tough and durable

Suitable for heavily-trafficked floors, with soft and hard flooring.

Quickset Render

Walls ready for tiling in just 2 hours

For faster job completion.

Easy application

From 2mm to 10mm coating thickness.

Pre-blended polymer-modified formulation

Ready to mix with water and comfortable to trowel out.

Available nationwide at all stockists of BAL Adhesives and Grouts

...and both with the BAL 25-year guarantee

So you can be sure they won't let you down.

Availability: Ultrabase in 20kg bags, Quickset Render in 25kg bags
