single part fastflex

the same flexibility as 2-part Fastflex - PLUS up to 33% more coverage

It's the new one-part tiling adhesive for floors subject to limited movement and vibration – and it won't mean any compromise on performance.

Trust BAL to get it right again

By switching to Single Part Fastflex, you won't be losing any performance quality. That's because, at BAL, we've developed the new formulation with our usual special care. We've ensured the same benefits that the two-part version gave you including:

- The same rubber-like, elastomeric flexibility
- Fast-setting
- Water- and frost-resistant

More coverage for your money

Each 12.5kg bag of Single Part Fastflex is priced the same as the previous 7.5kg+5 litre two-part mix. However, you'll find you get up to 33% more adhesive coverage for your money.

BAL Single Part Fastflex Adhesive is available in Grey and (coming soon) White.

Now available nationwide.
